BizPaL is an online service that automatically generates a customized list of permits, licences, and other regulatory requirements; such as, Permissions, Authorizations, Registrations, Certifications, etc. from all three levels of government, for entrepreneurs who are starting or growing a business.

Some of the benefits and advantages that the Manitoba BizPaL Service brings to your community and businesses are as follows:

- BizPaL provides your community with a competitive economic development advantage by eliminating duplicate regulatory challenges to streamline the process of identifying permits and licences that businesses in your area need.
- BizPaL cuts through the red tape and will make your community even more attractive for business investment by accessing information on more than 800 different business types. Information across federal, provincial and municipal jurisdictions has been coordinated to support businesses activities throughout their life cycle.
- BizPaL provides a powerful source of easy to access information that is available to front-line service delivery staff to better serve clients.
- BizPaL provides an extremely cost effective method of promoting the updated permits and licenses for starting and operating a business in the PARC member communities; there are no set up costs or ongoing fees that you need to pay, you need only invest some staff time in updating and maintaining your information on your regulatory requirements, and maintaining a simple link to Manitoba BizPaL on your website.
- Using BizPaL is as simple as going online and selecting the type of business that is being started or operated, and the business activities that are being planned. There is no cost for the public to use BizPaL.
- BizPaL is a way to fast-track important information that entrepreneurs need to get started and be successful. Research on business requirements has already been carried out, which means entrepreneurs can save time and money and get back to focusing on their business.

Sincerely,

Manitoba BizPaL Office
